

RPD/B9/83/2

29 April 1976

Dear Dr Miquel,

I was glad to have had the opportunity for our discussion here on 23 April concerning the problem of DNA recombinants. As you will see from the enclosure, we are convening a one-day meeting on 19 June of some of our ACMR members and temporary advisers to prepare recommendations for the full meeting of our Advisory Committee on Medical Research (ACMR), which will take place the following week.

I am also inviting Dr J.F. Tooze of EMBO to attend the meeting on 19 June in order to be able to achieve a coordinated approach of the different Organizations principally concerned with this problem.

I hope very much you can come and I should appreciate an early reply.

Yours sincerely,

Martin Kaplan
Secretary
Advisory Committee on Medical Research
